Our true values :
the origins of
our consumers
confidence !

Traceability

Safety

Cooperation

**Environmental
respect**

Territory

Solidarity

Sustainable development

Agri Confiance is the signature federating the **French agricultural co-operatives**. It covers all the production process **from the field to the plate**, thanks to the involvement of the farmers.

« Everyone talks about quality and environment. With Agri Confiance, that's not just words but acts. »

The certification of a sustainable and responsible agriculture

Agri Confiance is involved in a **respectful approach to environment**, protecting the natural resources (water, energy, soils, biodiversity) and applying the management of waste as well as of the inputs.

This approach of the quality and environmental management (French standard NF V01-007), which might be soon recognized by the European Union, can answer the criterion of High Environmental Value of the French agriculture

“Cultivate” the confidence from the field to the plate

Agri Confiance **certifies a full traceability of the food product** controlling all the production process : from labour or livestock farming to industrial food processing.

Create a link between the man, the land and the product

Agri Confiance signature puts producers' co-operatives at the very heart of a voluntary, fair and societal approach.

- It enables **to maintain their income**
- it stimulates **the economic growth in rural network.**

“Agri Confiance, the signature of the French agricultural co-operatives for a sustainable and responsible agriculture.”

- More than 135 certified co-operative companies
- More than 31 000 committed producers
- 14 different industries

Among the well-know brands of co-operatives with Agri Confiance label on their packaging: foie gras Montfort, France Endive, Magrets (duck filets) Delpeyrat, Mâche (lamb's lettuce) Val Nantais, wines from Cave du Marmandais, Uni Médoc, Buzet ...
